

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REPORT.

TO THE MOST HONOURABLE
THE MARQUESS OF LINLITHGOW, K.T.,
His Majesty's Secretary for Scotland.

GENERAL REGISTRY OFFICE OF BIRTHS, &C.,
EDINBURGH, 5th December, 1905.

MY LORD,

I HAD the honour in 1904, in conformity with the requirements of the seventh section of the Scottish Registration Act, 17 and 18 Vict., cap. 80, to transmit to your predecessor in office, the Right Honourable Andrew Graham Murray, K.C., M.P., now Lord Dunedin, as His Majesty's Secretary for Scotland, General Abstracts of the Births, Deaths, and Marriages registered in Scotland during the year 1903, along with the usual Explanation and Commentary.

At the same time my Thirty-ninth Annual Report on Vaccination was transmitted, in accordance with the nineteenth section of the Scottish Vaccination Act, 26 and 27 Vict., cap. 108.

I have now the honour to transmit the Detailed Annual Report, together with the relative Tables, regarding the Births, Deaths, and Marriages registered in Scotland during the same year (1903).

I have the honour to be,

MY LORD,

Your most obedient Servant,

STAIR AGNEW,

Registrar-General.

Constitution of the Compound Districts	564
List of Registration Districts which include Burghs or Towns of 2000 Inhabitants and apartments or parts thereof bearing a different name from the Districts in which they are situated.	536
Index	568

The months most fatal to children under five were January, November, and December; those most fatal to persons aged from five to twenty were January to March, June, and December. The first and the last months of the year proved most inimical to persons aged from twenty to sixty, and the same remark applies in the case of persons aged sixty years and upwards.

I have the honour to be,
